Missions Panel

What is your understand of missions? Join us for the survey and then prayerfully consider what you learn today to embrace this new understanding. What is the differences and similarities of local urban/rural, local diaspora, short-term and long-term missionary work ? Are you called? What are some of the standards of excellence for teams?

Leadership - The Answer is in the Room (Approved by RACE for 1 CE credit) - Dr. Lauren Charles

Join our conversation about different leadership styles, techniques, and habits. We all lead in different areas of our life, and we all have something to contribute to this conversation. Let’s increase our impact and influence for Christ together through this workshop.

Living On Mission - Dr. Sarah Wentworth

What does it look like to serve the Lord in building His kingdom? What does the Bible say about this? Please join me as I share some of my story and how I’ve seen Jesus show up in unexpected ways.

Dr. Nancy Moore & Minister Tim Rupard

Does God Still Miraculously Heal? A Case Report. When was the last time you were challenged with standing on Hebrews 13:8 "Jesus Christ is the same yesterday and today and forever"? What if this meant a conflict amongst your professional peers or even fellow believers? Is your ministry any different than how Jesus sent out His Twelve Disciples in Matthew 10:8 "Heal the sick, raise the dead, cleanse those who have leprosy, drive out demons. Freely you have received; freely give..." If someone claims to have performed, witnessed, or been part of a miraculous healing today then what criteria should there be to accept such a claim? In other words, what would it take for a modern-day healing miracle to be accepted as valid? How could we confirm such an event? Join in case report review...
