Session One 1:00pm

"What Does the Bible Say About Animals & What Does That Mean For Us?" Curtiss Gibbs

Scripture has much to say about animals – but it's not always straightforward. We'll unpack some of the verses in the Bible that refer to animals, what these may mean, and how they apply to vet med.

Session Two 4:00pm

"But What If I'm Not Good Enough?" Dr. Hannah Larson

Dr. Larson, a CSU grad, will build on some of the earlier discussions on starting your first year's out well, to now face the challenges that do arise when we start our careers. How do we lean on God and walk through season when anxiety and doubts arise.

Session Three 5:00pm

"Significant by Design" Bliss Steele

In a world that defines your worth by performance, appearance, and public opinion, in this session you will discover that your true self-worth is not something you earn but is revealed in your identity in Christ – who created us with purpose, loves us unconditionally, and calls us valuable not for what we do, but for who we are in Him.

Session Four 5:00pm

"Escaping Being Conformed to the World in Veterinary Medicine" Dr. Dean Hendrickson

How do we live in the world but not be conformed to it? How do we live in the world but not be of the world? We will take a look at how we can be transformed by the renewing of our mind through God's Word to us.
