Thank you for praying for the Schwenk Family

Dr. Barry Schwenk became involved with CVM in 1995 and participated in short term missions through CVM while at Kansas State University and for the next seven years as a small animal practitioner in Arizona. Called to international ministry, Barry, his wife, Colette, and daughter transitioned to rural Ethiopia where they served for six years. Maintaining involvement with CVM throughout his transition back to the United States, Barry and his family continue to serve veterinary students and professionals in their faith walk and ministries.
